Villeroy & Boch Launches Stylish New Cera Black Collection

Villeroy & Boch Hotel & Restaurant Division launches the stylish new glass tableware collection, Cera Black for 2010. This contemporary new range has been designed with the leading chef in mind for chic culinary presentation.

Cera Black is the ideal complement to recent collections including Cera in white porcelain, Cera in clear glass and also the decorative Bloom Sun & Shadow. The layering of these various collections and their contrasting forms, materials and colors, create an effortlessly elegant presentation style.

The twelve-piece Cera Black collection includes a selection of different sized glass plates in square, rectangular and circular shapes featuring a smooth curved plate edge. The original new collection teams innovation with functionality and is dishwasher safe, scratch-proof and resistant to discoloration. Cera Black is suitable for all elements of fine dining including both Michelin starred and more informal style restaurants.
